

2024 STAFFING RESOURCE ANALYSIS
OF THE OFFICES OF THE NEW JERSEY COUNTY
PROSECUTORS AND THE DIVISION OF CRIMINAL
JUSTICE

PREPARED BY:
OFFICE OF THE ATTORNEY GENERAL - OFFICE OF JUSTICE
DATA

INTRODUCTION

Each year, the New Jersey Division of Criminal Justice ("Division"), in conjunction with the OAG Office of Justice Data ("OJD"), collects salary and length of employment information from each County Prosecutor's Office. The Division is not required by law to collect this information and the submission of data by the County Prosecutors is strictly voluntary. OJD collates and analyzes the data received from the County Prosecutors. This report contains the results of OJD's analysis.

The purpose of this report is to provide the Attorney General with information concerning the amount of personnel resources allocated to the prosecutorial function in each county. This report may also provide the County Prosecutors with information to assist them with the management of their offices.

2024 Staffing Resource Analysis

Introduction

Each year, County Prosecutors voluntarily submit information related to staffing of full-time employees. This information includes employment classifications, employment titles, salary, attorney/law enforcement years of experience, hire date, and number of hours worked per week as well as indicating those staff members that terminated their employment during the reporting period. This report includes information from 2020 through 2024.

Notably, three modifications were made to the data collection beginning with the 2023 reporting period. First, at the request of County Prosecutors and approved by the Division of Criminal Justice, “length of bar admission” and “length of sworn law enforcement officer” was changed to “Attorney/Law Enforcement years of experience”. The modification more fully captures the range of experience of staff, including that which may pre-date admission to the New Jersey Bar and/or swearing in within the State of New Jersey.

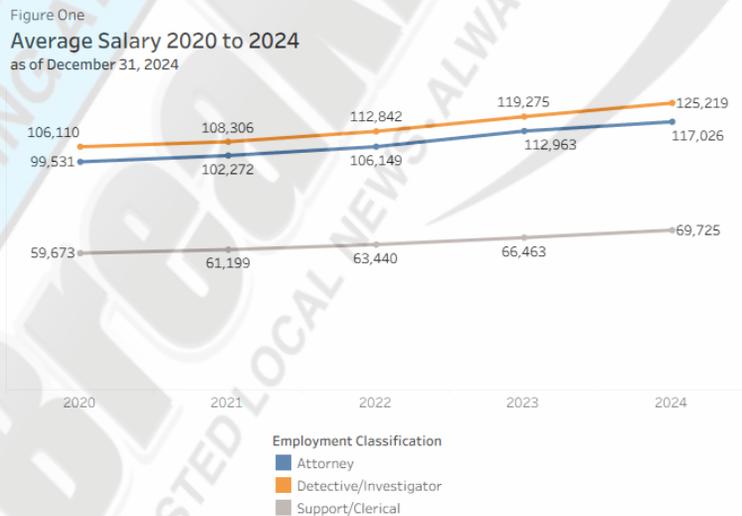

Second, the employment classifications and employment titles have been streamlined. The four employment classification categories for Detective, Investigator, Support and Clerical have been combined into two classifications “Detective/Investigator” and “Support/Clerical”. These aggregated categories group employees by the type of work generally performed rather than the specific title they work under.

Third, starting with 2024 reporting period, data was collected from County Prosecutors in the Law Enforcement Reporting Portal, which implemented a more standardized method and form of collection.

On behalf of the Prosecutor’s Supervision Unit in the Division of Criminal Justice, the Office of Justice Data analyzed the data received from the County Prosecutors.¹ This report contains the results of the analysis.

State Overview

Figure One depicts the average salary for all full-time staff from 2020 through 2024. The average employee salaries increased in these four years, though to varying proportions. Overall, in 2024, average salaries of Detectives/Investigators increased about 5%, salaries of Attorneys increased about 3.5%, and salaries of Support/Clerical staff increased about 5%.

¹ This report includes salary information reported as of December 31, 2024 and provided by December 2025.

Figure Two depicts the average number of years of Public Service for employees from 2020 through 2024. The average years of public service dropped in 2023 across all employment classifications. Information pertaining to employee departures is not included in this data collection, but the pattern suggests the departure of longer tenured employees. As shown in Figure Three, despite these potential departures, the volume of employees has remained relatively stable from 2020 through 2024, though there have been some fluctuations.

Figure Two
Average Years of Public Service
as of December 31, 2024

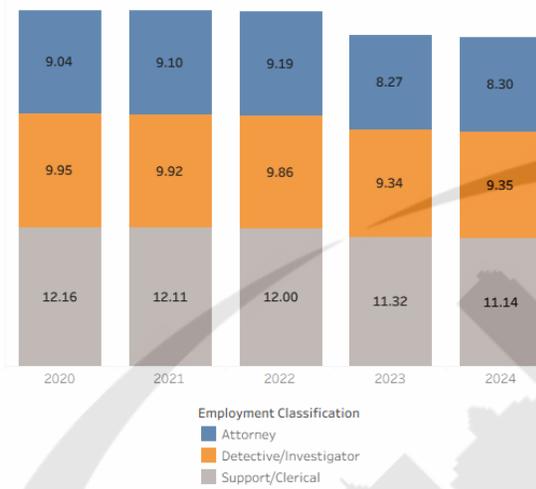

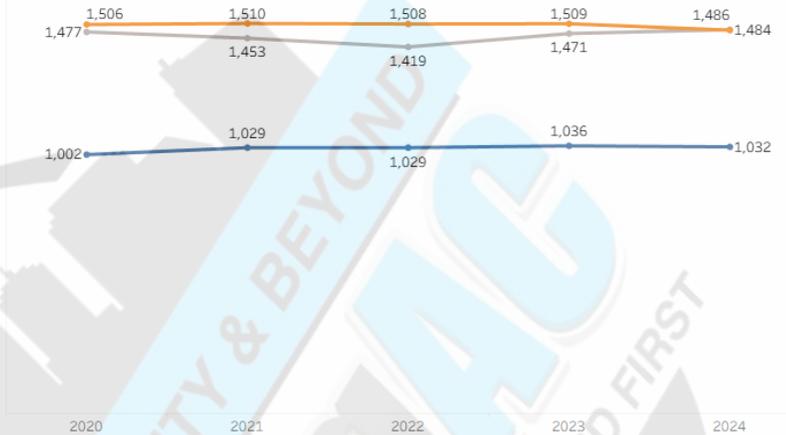

Figure Three
Number Employed 2020 to 2024
as of December 31, 2024

County Tables

The tables in this section depict a variety of employment classifications by county as reported for 2024.
